SANTIAGO MOLANO HOLGUÍN

Senior fullstack developer with 5+ years of experience building scalable solutions for banking, fintech, and digital health. Backend specialist in Laravel (PHP), also working with Kotlin (Android Jetpack Compose) and Vue (TypeScript). Strong in clean and hexagonal architecture, AWS, and SQL. Proven ability to own projects end to end and lead technically. Seeking to step into a Tech Lead or Software Architect role where I can contribute with architectural decisions, team mentorship, and technical excellence.

WORK EXPERIENCE

BACKEND DEVELOPER

Alternova Inc | Full time
May 2023 - Present

- BAM Guatemala: led backend development of the banking correspondent system across its entire lifecycle (deployments, critical bugs, new functionalities). I now own the entire project as the only developer: backend (Laravel/PHP), Android mobile (Kotlin, Jetpack Compose) and web (Vue, TypeScript).
- Maintain the platform, fix bugs, and implement new features on mobile and web.
- Nequi Guatemala: integrated Nequi into BAM and built a custom development that provides contractual independence over time with Grupo Cibest, so Nequi operates as a separate banking correspondent business model instead of under the BAM app.
- Built the Nequi backend with the latest Laravel and PHP using hexagonal architecture and AWS services (Cognito, VPC endpoints, CloudWatch, EC2, SNS, SES) to communicate with the Nequi API.
- Implemented clean architecture and OWASP vulnerability control, ensuring high availability and security in productive banking environments.
- Implemented and fixed deployment pipelines on AWS EC2 with Packer for Laravel/PHP.
- Sky: backend of a digital health platform for ADHD patient treatment: interactive therapeutic games with Laravel and the administrative side with Django (metrics, patients, activity, progress, specialists).
- Technically guided a junior developer, coordinating tasks and code reviews as an informal project leader.
- Worked on additional projects using Django and FastAPI.

FULLSTACK DEVELOPER

Sportta S.A.S | Full time
January 2023 - May 2023

- Developed and maintained the mobile and web app (React/React Native + Laravel) for athletes.
- Deployment cycle automation (CI/CD), reducing errors and delivery time in production.
- Restructured relational database to optimize performance and scalability.

OPERATIONS ANALYST | FULLSTACK DEVELOPER

BTG Pactual Colombia | Internship
July 2022 - January 2023

- Resolved critical incidents in production at SQL level, ensuring availability in banking operations.
- Channeled functional bugs with the external provider, generating reports in Jira and facilitating a quick solution.
- Automated cleanup of duplicate stored procedures, improving system maintainability.

EDUCATION

GOOGLE CYBERSECURITY CERTIFICATE
Coursera | 2024

SYSTEM ENGINEERING
Institución Universitaria ITM | Present

SOFTWARE PROGRAMMING TECHNICIAN
SENA | 2022

TECHNICIAN IN ACCOUNTING FOR COMMERCIAL AND FINANCIAL OPERATIONS
SENA | 2020

SKILLS

- Specialties: PHP (Laravel), Kotlin (Android, Jetpack Compose), Vue (TypeScript)
- Architecture: Clean Architecture, Hexagonal Architecture, Microservices, SOLID
- Languages & Frameworks: PHP (Laravel), Kotlin, TypeScript, Python (Django, FastAPI), JavaScript (Vue, React, React Native)
- Cloud & DevOps: AWS (Cognito, VPC endpoints, CloudWatch, EC2, SNS, SES), Azure, GCP, Docker, GitHub Actions, Packer, CI/CD
- Databases: SQL (MySQL, PostgreSQL), Supabase
- Security: OWASP, Google Cybersecurity Certificate
- Tools: Jira, Slack, Git, GitHub, GitLab, ClickUp, AWS, Azure
- Other: Hardware and software maintenance, technical support

---

ADDITIONAL INFORMATION

- Languages: Spanish (native), English (B2), German (A1)
- Availability: Open to remote, hybrid, and on-site roles; able to relocate to another city
- Profile: Software developer comfortable in frontend and backend (backend is my specialty), experienced in digital health and financial technology, with cybersecurity studies; ready for technical leadership roles
- Own computer; private driver's license (motorcycle and car)
